Project Name	Docspot: Seamless Appointment Booking For Health
Maximum Marks	4 Marks

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Our team, with members skilled in development and cloud, collaborated using GitHub and Trello. We discussed healthcare issues and chose to solve appointment booking challenges. The selected problem statement is **“DocSpot”**, a cloud-based platform for seamless doctor appointment booking. It allows patients to find doctors, view availability, and book slots, while doctors manage schedules. The aim is to improve healthcare access through a secure, user-friendly, and efficient online system.

Step-2: Brainstorm, Idea Listing and Grouping

- Ideas generated include:
 - Patient-side doctor search and booking
 - Doctor-side schedule and profile management
 - Admin approval for doctor verification
 - Messaging system between patient and doctor

- Appointment reminders and notifications
